Submit Notes

The config file option 'submit' was used.
submit = srun -c 1 -n \$ranks -q \$command

General Notes

130.socorro (base): "nullify_ptrs" src.alt was used.

MPI startup command:
srun command was used to start MPI jobs.

export MPICH_NO_BUFFER_ALIAS_CHECK=true
If set, the buffer alias error check for collectives is disabled. The MPI standard does not allow aliasing of type OUT or INOUT parameters on the same collective function call. The default is false.

Job placement:
Slurm is used for job placement.
Compute nodes are selected by Slurm.
No specific node selection is used.
